TOYS: BASIC RULES FOR JUDGING APPLY

SOFT TOYS - A soft fabric should be used, and should be sewn together neatly and firmly either by hand or machine. The shape should be good, firmly and evenly stuffed - but not hard and heavy. The head should be firm and there should be no sharp or easily detached parts for a small child to pull off. Eyes etc. are best if worked or made of felt and attached firmly.

HARD TOYS - Shapes should be simple and balanced. If made from wood the grain should be taken into consideration. If painted, colours that are gay appeal to a child. Paint should be neatly and evenly applied. The toy should be strong, pleasing to the eye and well finished with no sharp corners.

DECORATIVE TOYS - These are usually large and are more for show than use. The general principles for judging soft toys can be applied to decorative toys.

No class for electrical craft.
